

Gender Pay Gap Report: 2019 - 2020

1. Introduction

Pele Trust employs more than 250 employees and thus is required to publicly report its gender pay gap.

As required by law, the trust reports on:

- Average gender pay gap as a mean average
- Average gender pay gap as a median average
- Average bonus gender pay gap as a mean average
- Average bonus gender pay gap as a median average
- Proportion of males receiving a bonus payment and proportion of females receiving a bonus payment
- Proportion of males and females when divided into four groups ordered from lowest to highest pay

Pele Trust formed in February 2019 and this report is the second gender pay report since that date. The gender pay gap shows the difference between the average earnings of men and women in an organisation, expressed as a percentage of men's earnings.

2. Pay Gap Calculations

The mean gender pay gap is the difference between the mean hourly rate of pay of male full-pay relevant employees and that of female full-pay relevant employees.

The median gender pay gap is the difference between the median hourly rate of pay of male full-pay relevant employees and that of female full-pay relevant employees.

We have made our calculations using payroll data, and following the approach to reporting set out in government guidance. The information published within this report is accurate.

3. Pay Policies

Pele Trust staff are paid in accordance with School Teachers Pay and Conditions for teachers and NJC pay and conditions for support staff. We believe that men and women are paid equally for doing equivalent jobs across the Trust.

4. Information relation to bonus payments

Pele Trust does not operate a bonus scheme. No member of staff received a bonus so there is no data to publish in relation to bonus payments.

5. Pay Gap Data

As at 31 March 2020 there were 392 staff employed by the trust, an increase of 41 as at 31 March 2019. Of those 392, 308 are women and 84 are men, an increase of 28 women and 13 men.

5.1 All Employees

Table 5.1.1 below shows the percentage of all employed men and women in each quartile (and the change from 31 March 2019). The data shows fewer women than in the previous year appearing in the lower quartiles. However, this trend is also reflected in the upper pay quartiles with fewer women than in the previous year appearing in the upper pay quartiles, most significantly in Q4.

Table 5.1.1

Quartiles	% Female Staff	% Male Staff
Lower Quartile (Q1)	79.64% (-1.3)	20.36 (+1.3)
Lower Middle Quartile (Q2)	88.72 (-0.79)	11.28 (+0.79)
Upper Middle Quartile (Q3)	84.37 (-0.47)	15.63 (+0.47)
Upper Quartile (Q4)	61.55 (-2.3)	38.45 (+2.3)
Grand Total	79	21

Table 5.1.2 shows the mean and median pay gap between women and men in Pele Trust.

Table 5.1.2

	Female Staff	Male Staff	GAP
Mean Hourly Rate	£16.61 (-£0.29)	£23.45 (+£0.07)	34.15% (+6.43%)
Median Hourly Rate	£10.97 (-£0.11)	£23.45 (-£4.22)	72.52% (+12.56%)

The data indicates that Pele Trust employs more men in higher paid roles (senior teaching, admin and predominantly full time), and substantially fewer men in lower paid roles (teaching assistants, lunchtime supervisors, cleaning & catering, most of which are part time). 54% of all male employees are full time compared to 29% of all female employees.

5.2 Employees by Role Type

The tables below shows the pay gap data in each quartile by role type. The format reflects the tables above and shows the percentage of males and females in each job role type and the mean and median pay gap between males and females in each quartile.

Pele Trust employs more women than men across each school and job role except leadership. This reflects a national pattern in schools; more women than men teach, particularly in the primary age range and more women than men work in other school roles such as cleaning, catering and office based employment.

The job role data indicates that, with the exception of Teaching Assistants, the mean and median hourly pay rate for men is more than for women. Substantially fewer men are in lower paid roles (teaching assistants, lunchtime supervisors, cleaning & catering, most of which are part time). 54% of all male employees are full time compared to 29% of all female employees.

Actions to be taken

1. The Trust remains committed to addressing the gender pay gap whilst ensuring that recruitment is fair and best meets the needs of the organisation.
2. Raising awareness with Directors, Senior Leaders and those responsible for recruitment in the Trust will be key.
3. Ongoing analysis of results will enable the Trust to identify any target areas or job roles.
4. The flexible working policy has been reviewed and provides equal opportunity for men and women.
5. The Shared Parental Leave policy has also been issued to enable more men to participate in their statutory right to parental leave.
6. Wording of adverts will be reviewed to encourage recruitment in some specific areas.
7. Recruiters will consider how to ensure mixed gender shortlists and mixed gender recruitment panels.

This report has been agreed by the Board of Directors, Pele Trust.
